

Palliative Nursing Summit Project List

I.	ADVANCE CARE PLANNING
1.1	Create a campaign for nurses to have their own ACP
1.2	Difficult conversations and advanced care planning are a routine part of nursing education and professional development; which includes competencies and a set of standards for all nurses to meet
1.3	Nurses will have the competence and confidence in facilitating advance care planning discussions with patients and families
1.4	Includes the development of language to include in job descriptions regarding the registered nurses role in advance care planning
1.5	Develop information on the “business case” for nurses’ role in advance care planning
II.	PAIN & SYMPTOM MANAGEMENT
2.1	Public education about pain and symptom management that balances current headlines of opioid deaths
