## SECTION 1: GENERAL INFORMATION

### ABOUT THE HPCC

The Hospice and Palliative Credentialing Center (HPCC) was incorporated in 1993 as the National Board for Certification of Hospice Nurses (NBCHN) to develop a program of certification for the specialty practice of hospice and palliative nursing. The HPCC has been affiliated with the Hospice Nurses Association (HNA), now Hospice and Palliative Nurses Association (HPNA), since its inception. The first certification examination for Hospice Nurses was given in 1994, and in 1998, initial certificants were required to renew their credential for the first time. HPCC has expanded its mission and now provides specialty Exams for several members of the interdisciplinary team: advanced practice registered nurses, registered nurses, pediatric registered nurses, licensed practical/vocational nurses, nursing assistants, and social workers. Currently there are over 14,000 individuals certified by HPCC.

The HPCC Board of Directors is a competency-based Board that oversees all aspects of the certification program. The composition of the Board includes certified representatives from HPCC certification programs and may include a certified nurse in a nursing specialty other than hospice and palliative care, and a public Board member. HPCC has the responsibility for development, administration and maintenance of the examinations in conjunction with a testing agency, PSI.

### INCLUSIVE LANGUAGE IN EXAMINATIONS

Members of the HPCC Examination Development Committees (EDCs) regularly review pretest and exam questions for inclusive language to ensure they are free from stereotypes, overt and subtle discrimination, and negative messages.

The Exam Development Committee members use the [HPCC DEIB Style Guide](#), for inclusive language, which includes avoiding the use of gender-specific pronouns and other non-inclusive language. Ongoing review of language included in exam items enables HPCC to offer examinations that are culturally aware and inclusive.

HPCC remains committed to allowing all stakeholders to participate fully in the certification process and develop a strong sense of community within its portfolio of certification programs.

### CERTIFICATION

HPCC endorses the concept of voluntary, periodic certification for all hospice and palliative advanced practice registered nurses, registered nurses, pediatric registered nurses, licensed practical/vocational nurses, nursing assistants, and social workers. It focuses specifically on the individual and is an indication of current competence in a specialized area of practice. Certification in hospice and palliative care is highly valued and provides formal recognition of competence.

The purpose of certification is *to promote delivery of comprehensive hospice and palliative care through the certification of qualified hospice and palliative professionals by:*

1. Recognizing formally those individuals who meet the eligibility requirements for and pass an HPCC certification examination or complete the recertification process.
2. Encouraging continuing personal and professional growth in the practice of hospice and palliative care.
3. Establishing and measuring the level of knowledge required for certification in hospice and palliative care.
4. Providing a national standard of requisite knowledge required for certification; thereby assisting the employer, public and members of the health professions in the assessment of hospice and palliative care.

### TESTING AGENCY

PSI Services is the professional testing agency contracted by the HPCC to assist in the development, administration, scoring and analysis of the HPCC certification examinations. PSI is a leader in the testing industry, offering certification, licensing, talent assessment and academic solutions worldwide.

### HPCC PROCESSING AGREEMENT

HPCC agrees to process your application subject to your agreement to the following terms and conditions:

1. To be bound by and comply with HPCC rules relating to eligibility, certification, renewal and recertification, including, but not limited to, payment of applicable fees, demonstration of educational and experiential requirements, satisfaction of annual maintenance and recertification requirements, compliance with the HPCC Grounds for Sanctions and other standards, and compliance with all HPCC documentation and reporting requirements, as may be revised from time to time.
2. To hold HPCC harmless and to waive, release and exonerate HPCC, its officers, directors, employees, committee members, and agents from any claims that you may have against HPCC arising out of HPCC's review of your application, or eligibility for certification, renewal, recertification or reinstatement, conduct of the examination, or issuance of a sanction or other decision.
3. To authorize HPCC to publish and/or release your certification status and any final or pending disciplinary decisions to state licensing boards or agencies, other healthcare organizations, professional associations, employers or the public.
4. To only provide information in your application to HPCC that is true and accurate to the best of your knowledge. You agree to denial of eligibility, revocation or other limitation of your certification, if granted, should any statement made on this application or hereafter supplied to HPCC is found to be false

or inaccurate or if you violate any of the standards, rules or regulations of HPCC.

## EXAMINATION ADMINISTRATION

The HPCC Examination is delivered by computer at approximately 500 PSI Test Centers geographically located throughout the United States and by Live Remote Proctoring. The examination is administered by appointment only. Candidates are scheduled on a first-come, first-served basis. The examination is not offered on the first Monday of September or December 24-26.

## LIVE REMOTE PROCTORING (LRP)

HPCC offers candidates the option to take an examination through Live Remote Proctoring (LRP). LRP is a secure way for a candidate to take an examination outside of a test center utilizing technology to connect with a live professional proctor. All exam windows and application deadlines remain the same for exams administered at a testing center or via live remote proctoring.

For additional information and specifications for LRP, visit <https://www.advancingexpertcare.org/hpcc/live-remote-proctoring>. It is the tester's responsibility to ensure their computer meets the specified requirements to take the exam and that they can access their HPCC account.

If you are unable to take the LRP exam due to an account lockout that occurred outside of HPCC business hours, you must complete a transfer form which will allow you to reschedule within the same testing window (if testing seats are available). If no seats are available, you will be transferred to the next testing window.

## EXAMINATION WINDOWS AND APPLICATION DEADLINES

Applications that are received before the application "Start Date" or after the application "Deadlines" as posted below will be returned to the applicant **unprocessed**.

**Applications are processed for the corresponding testing window ONLY as indicated in the chart below.**

TESTING WINDOW	Application Start Date	Online Application Deadline
March 1 – March 31	December 1	February 15
June 1 – June 30	March 1	May 15
September 1 – September 30	June 1	August 15
December 1 – December 31	September 1	November 15

To apply for an HPCC examination, complete the application online. All applications must be **RECEIVED** at PSI by the application deadline.

Incomplete applications will result in a delay of an applicant's eligibility to test. PSI & HPCC make every effort to notify candidates of missing or incomplete documents.

Documents not received prior to the opening of the current testing window, will decrease the time frame available to the candidate to test in that window. If a candidate does not submit the required documents for the selected testing window, they will be required to complete a transfer application and pay a \$110 transfer fee to move to the next window.

## TEST CENTER LOCATIONS

A current listing of approximately 500 Test Centers with specific address information can be viewed at <https://test-takers.psiexams.com/hpcc>. From this page, click Check for Available Dates, then select the exam you wish to register form and click Continue. On the next screen it will allow you to see the test center locations.

## COPYRIGHTED EXAMINATION QUESTIONS

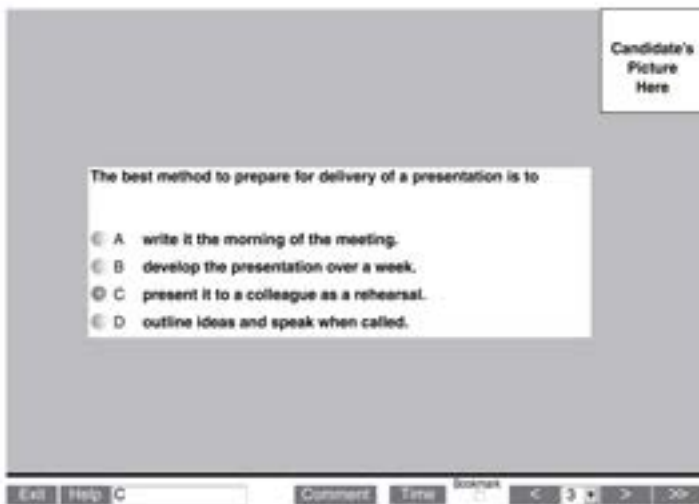

All examination questions are the copyrighted property of HPCC. It is forbidden under federal copyright law to copy, reproduce, record, distribute or display these examination questions by any means, in whole or in part. Doing so may subject you to severe civil and criminal penalties.

## EXAM FUNCTIONALITY CHECK

Prior to attempting the timed examination, you will be given the opportunity to practice taking an examination on the computer. The time you use for this practice examination is NOT counted as part of your examination time. When you are comfortable with the computer testing process, you may quit the practice session and begin the timed examination.

## TIMED EXAMINATION

Following the practice examination, you will begin the timed examination. Before beginning, instructions for taking the examination are provided on-screen. The following is a sample of what the computer screen will look like when you are attempting the examination.

The computer monitors the time you spend on the examination. The examination will terminate if you exceed the time limit. You may click on the Time button in the lower right portion of the screen to monitor your time. A digital clock indicates the time remaining for you to complete the examination. The time feature may also be turned off during the examination.

Only one examination question is presented at a time. The question number appears in the lower right portion of the screen. The entire examination question appears on-screen (i.e., stem and four options labeled – A, B, C and D). **Indicate your choice by either entering the letter of the option you think is correct (A, B, C or D) or clicking on the option using the mouse.** To change your answer, enter a different option by entering in the letter in the response box or by clicking on the option using the mouse. You may change your answer as many times as you wish during the examination time limit.

To move to the next question, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination question by question. If you wish to review any question or questions, click the backward arrow (<) or use the left arrow key to move backward through the examination.

The computer-based test (CBT) is set up in a linear format. In a linear format the candidate answers a predetermined number of questions. The examination questions do not become increasingly more difficult based on answers to previous questions. Answer selections may be changed as many times as necessary during the allotted time.

A question may be left unanswered for return later in the examination session. Questions may also be bookmarked for later review by clicking in the blank square to the right of the Time button. Click on the double arrows (>>) to advance to the next unanswered or bookmarked question on the examination. To identify all unanswered and bookmarked questions, repeatedly click on the double arrows (>>). When the examination is completed, the number of questions answered is reported. If all questions have not been answered and there is time remaining, return to the examination and answer those questions. Be sure to answer each question before ending the examination. **There is no penalty for guessing.**

## CANDIDATE COMMENTS

You may provide comments for any examination question during the computerized examination **by clicking on the Comment button** to the left of the Time button. This opens a dialogue box to enter comments. Because of test security considerations, you will not receive individual replies about the content of examination questions, nor will you be permitted to review examination questions after completing the examination. At conclusion of the examination, you will also be asked to complete a short evaluation and a survey about the examination administration conditions.

## INCLEMENT WEATHER, EMERGENCY, OR TECHNICAL PROBLEMS

In the event of inclement weather or unforeseen emergencies on the day of an examination, the HPCC and PSI will determine whether circumstances warrant the cancellation, and subsequent rescheduling, of an examination. The examination will usually not be rescheduled if the Test Center personnel are able to open the Test Center.

You may visit the [www.psonline.com/openings](http://www.psonline.com/openings) website prior to the examination to determine if PSI has been advised that any Test Centers are closed. Every attempt is made to administer the Exam as scheduled; however, should an Exam be canceled at a Test Center, all scheduled candidates will receive notification regarding rescheduling or reapplication procedures.

If power to a Test Center is temporarily interrupted during an administration, your examination will be restarted. The responses provided up to the point of interruption will be intact, but for security reasons the questions will be scrambled.

If you experience issues during an LRP exam, contact PSI technical/customer support 844-267-1017. PSI may ask to access your computer remotely to help resolve technical problems. HPCC is unable to assist with LRP technical issues.

## REPORT OF RESULTS

After completing the examination, you are asked to complete a short survey and an evaluation of your examination experience. Then, you are instructed to report to the examination proctor to receive your score report. **Scores are only reported in printed form at the testing facility or emailed.**

LRP candidates will receive an on-screen “pass” or “fail” at the end of the exam. A detailed score report will be emailed to LRP candidates within 24 hours. If you do not receive your score report within 24 hours, you may access it by clicking <https://test-takers.psiexams.com/hpcc/auth/loginlogging> and logging into your PSI account. Once logged in, click on the “Manage” tab, and then “Check for Score Report”. You can also contact PSI at 833-256-1422 and request your score report to be emailed to you.

Your score report will indicate a “pass” or “fail.” Additional detail is provided as the percent correct in each major content category. Your overall test score is reported as a scaled score, which is statistically derived from the raw score. Your total score determines whether you pass or fail; it is reported as a scaled score ranging between 200 and 800.

The methodology used to set the minimum passing score for each examination is the Angoff method, applied during the performance of a Passing Point Study by a panel of content experts. The experts evaluated each question on the respective examination to determine how many correct answers are necessary to demonstrate the knowledge and skills required for the designation. The candidate’s ability to pass the examination depends on the knowledge and skill displayed during the examination, not on the performance of other candidates.

The minimum scaled score needed to pass the examinations has been set at 500 scaled score units. The reason for reporting scaled scores is that different forms (or versions) of the examinations may vary in difficulty. As new forms of the examinations are introduced each year, a certain number of questions in each content area are replaced. These changes may cause one form of the examination to be slightly easier or harder than another form. To adjust for these differences in difficulty, a procedure called “equating” is used. The goal of equating is to ensure fairness to all candidates.

In the equating process, the minimum raw score (number of correctly answered questions) required to equal the scaled passing score of 500 is statistically adjusted (or equated). For instance, if an examination is determined to be more difficult than the previous form of the examination, then the minimum raw passing score required to pass will be slightly lower than the original raw passing score. If the examination is easier than the previous form of the examination, then the minimum raw score will be higher. Equating helps to assure that the scaled passing score of 500 represents the same level of competence no matter which form of an examination the candidate takes.

In addition to the candidate’s total scaled score and scaled score required to pass, percent correct are reported for the major categories on the content outline. Content categorical information is provided to assist candidates in identifying areas of relative strength and weakness; however, passing or failing the examination is based only on the candidate’s total scaled score.

## DUPLICATE SCORE REPORT

For exams completed prior to March 2024, you may purchase additional copies of your score report at a cost of \$25 per copy. Requests must be submitted to PSI, in writing, within 12 months after the examination. The request must include your name, unique identification number, mailing address, telephone number, date of examination and examination taken. Submit this information with the required fee payable to PSI Services Inc. Duplicate score reports will be mailed within approximately five business days after receipt of the request and fee.

## CONFIDENTIALITY

Individual examination scores are released **ONLY** to the individual candidate. Testing results will not be given over the phone or via facsimile.

## RECOGNITION OF CERTIFICATION

Eligible candidates who pass an HPCC certification examination are eligible to use the respective registered designation after their names.

- **Advanced Certified Hospice and Palliative Nurse Examination: ACHPN®**
- **Advanced Palliative Hospice Social Worker Certified Examination: APHSW-C**
- **Certified Hospice and Palliative Licensed Nurse Examination: CHPLN®**
- **Certified Hospice and Palliative Nurse Examination: CHPN®**
- **Certified Hospice and Palliative Nursing Assistant Examination: CHPNA®**
- **Certified Hospice and Palliative Pediatric Nurse Examination: CHPPN®**

Each certification expires after a period of four years unless it is renewed by the individual. A registry of certified hospice and palliative certificants will be maintained by the HPCC and may be used for: 1) employer, accrediting body or public verification of an individual’s credential; 2) publication; 3) special mailings or other activities.

## RENEWAL OF CERTIFICATION

Attaining certification is an indication of a well-defined body of knowledge. Renewal of the certification is required every four years to maintain certified status. Initial certification or renewal of certification is valid for four years.

It is the certificant’s responsibility to apply for renewal by the

required application deadline, posted at [advancingexpertcare.org/certification](http://advancingexpertcare.org/certification). HPCC attempts to provide certificants with renewal notices, but failure to receive a notice does not relieve the certificant from the responsibility to apply for renewal by the application deadline.

***Certificants who do not renew before the expiration date of their credential will not be able to use the credential after that date.***

Please refer to Section 2 of the handbook for specific information regarding renewal of certification.

## ETHICAL CODE

HPCC has a responsibility to ensure the integrity of all processes and products of its certification programs to the public, the professionals, the employers and its certificants. Therefore, HPCC considers the Hospice and Palliative Nurses Association (HPNA) Code of Ethics and the Code of Ethics of the National Association of Social Workers as the essential ethical frameworks for honoring human dignity and professional accountability for conduct. HPCC upholds the high standards for credentialing agencies established by two national accreditation organizations, the Accreditation Board for Specialty Nursing Certification (ABSNC) and the National Commission for Certifying Agencies (NCCA).

## MISUSE OF CERTIFICATION CREDENTIALS

Please be advised that once certified, the designated credential may only be used by the certified individual during the four-year time period designated on the certificate. Failure to successfully recertify requires the individual to **stop use of the credential immediately** after the credential has expired. Any other use, or use of the HPCC Trademark without permission from the HPCC Board of Directors, is fraudulent.

HPCC will thoroughly investigate all reports of an individual or corporation fraudulently using an HPCC credential and/or any other HPCC trademarks. If proof is obtained that an unauthorized individual or corporation has used the credential or trademark, HPCC will notify the appropriate individual with documented proof and state that HPCC has no record of the individual's or corporation's authorization to use the credential or trademark. Immediate remediation will be requested of the appropriate individual. If corrective actions are not completed and fraudulent use continues after 30 days, a letter will be sent by the Director of Credentialing to the appropriate individual's employer. Continued fraudulent use after 45 days of first notification will be reported to nursing boards and/or published for professional or consumer notification at the discretion of the HPCC Board of Directors.

Failure to meet these standards may result in revocation.

HPCC may deny, suspend or revoke any individual's certification for due cause through disciplinary action.

## GROUND FOR DISCIPLINARY ACTION

The following conditions or behaviors by applicants or certificants constitute grounds for disciplinary action by the HPCC:

1. Ineligibility for certification, regardless of when the ineligibility is discovered.

## SECTION 2: CERTIFICATION EXAMINATION FOR HOSPICE AND PALLIATIVE PEDIATRIC REGISTERED NURSES

### ACCREDITATION OF THE CERTIFICATION EXAMINATION

The HPCC Certified Hospice and Palliative Pediatric Nurse (CHPPN®) exam has fulfilled the accreditation requirements of the Accreditation Board for Specialty Nursing Certification (ABSNC). ABSNC grants accreditation through a process of peer review and determination that a specialty nursing certification organization has the essential components and met the high standards established by ABSNC. More information about accreditation can be found at [advancingexpertcare.org/certification](http://advancingexpertcare.org/certification).

### EXAMINATION

The Certification Examination for Hospice and Palliative Pediatric Registered Nurses consists of 150 multiple-choice items, of which 135 have equal weight for scoring. The examination includes 15 non-scored “pretest” or “trial” items that are interspersed throughout the examination. Performance on the pretest questions does not affect your examination score. The examination presents each question with four response alternatives (A, B, C, D). One of those represents the best response. You will be permitted three hours to complete this examination. Candidates achieving a passing score on this examination will be awarded the **Certified Hospice and Palliative Pediatric Registered Nurse (CHPPN®)** credential.

The HPCC, with the advice and assistance of PSI, prepares the examinations. Individuals with expertise in pediatric hospice and palliative nursing practice write the questions and review them for relevancy, consistency, accuracy and appropriateness.

### DEFINITION OF HOSPICE AND PALLIATIVE CARE

Hospice and palliative care is the provision of care for the patient with serious illness and their family with the emphasis on their physical, psychosocial, emotional and spiritual needs. Hospice and palliative interdisciplinary team members serve in a variety of roles including: expert clinicians, educators, researchers, administrators, consultants, case managers, program developers/coordinators, and/or policymakers. Moreover, hospice and palliative care includes holistic assessment of the patient and family, offering information to

allow more informed decision-making, meticulous pain and symptom management, determination and optimization of functional status, and support of coping patterns.

After entering your login information, select "manage print confirmation" to print off the order summary. You may request a receipt by emailing PSI at [ampexamsservices@psionline.com](mailto:ampexamsservices@psionline.com), or calling 833-256-1422.

**EXAMINATION CONTENT**

To begin your preparation in an informed and organized manner, you should know what to expect from the actual examination in terms of the content. The content outline will give you a general impression of the examination and, with closer inspection, can give you specific study direction by revealing the relative importance given to each category on the examination.

The content of the examination is directly linked to a national job analysis completed in 2023 that identified the activities performed by hospice and palliative pediatric nurses. Only those activities that were judged by hospice and palliative pediatric nurses to be important to practice for a nurse with two years of practice in hospice and palliative pediatric care are included on the examination content outline. Each question on the examination is linked to the examination content outline and is also categorized according to the level of complexity, or the cognitive level that a candidate would likely use to respond.

The HPCC pediatric registered nurse certification examination requires the ability to apply the nursing process (i.e., assess, plan, intervene and evaluate) in helping patients and their families (defined as including all persons identified by the patient) toward the goal of maintaining optimal functioning and quality of life within the limits of the disease process. The examination includes questions distributed across six domains of practice as shown in the detailed content outline that follows.

## **DETAILED CONTENT OUTLINE INFORMATION**

The Detailed Content Outline lists each task that **MAY** be tested by content area and performance level. Each and every task listed for a given content area is not tested on any one form of the examination. Rather, these tasks are representatively sampled such that the test specifications for performance levels are met (i.e., appropriate number of recall, application and analysis performance level items).

## **DRUG NAMES**

Generic drug names are used throughout the examination except in individual situations as determined by the examination development committee.

## SUGGESTED REFERENCES

The HPCC has prepared a list of references that may be helpful in preparing for the Certification Examination for Hospice and Palliative Pediatric Registered Nurses. The reference lists contain textbooks that include information of significance to hospice and palliative pediatric nursing practice. Inclusion of certain textbooks on the lists does not constitute an endorsement by the HPCC of specific professional literature which, if used, will guarantee candidates successful passing of the certification examination. Test candidates are not required to purchase or review these resources. HPCC does not endorse specific resources and does not receive compensation from the sale or use of any resources.

To prepare for the examination, review the Detailed Content Outline and develop a study plan based on your individual knowledge strengths and weaknesses. It is good practice to use a current, general resource for overall review, and supplement with resources on specific topics to address your individual needs.

## CONVERSION ITEMS

Conversion items use the Equianalgesic Opioid Dosing conversion table (Table 1-1) from the book McPherson, M. L. (2018) *Demystifying Opioid Conversion Calculations: A Guide for Effective Dosing*, (2nd Ed.). Bethesda, MD: American Society of Health-Systems Pharmacists.

The table is included in the items.
